

Hi, my name is Monica Jumper. Real Estate is certainly a very rewarding career for me. I have been a Realtor for the past 11 years working mostly in the Carlisle, Newville, and Shippensburg area. Working with First Time Home Buyers is certainly one of my favorite transactions. Explaining all the items that are needed in a Real Estate Transaction and knowing that someone is trusting you with one of the most important decisions in their life is certainly a highlight in my career. I enjoy working with both buyers and sellers. I find that by the time the transaction is complete I have not only gained a client but a friend. I have clients that still call, email or stop by to see me on a daily basis as though we have been friends for years. It is very important to maintain a good relationship and I value the opportunity to be able to do this with each client.

I am currently married and have been for the past 21 years. I am very proud of my two children ages 19 and 16. We are a very busy family with both children participating in sports such as soccer and basketball. I also have another full time career as a Customer Service Manager. This position has provided me the experience and understanding of what most consumers are expecting in the marketplace. My motto has been, treat others how you expect to be treated.
